

HLTAID015 Provide advanced resuscitation and oxygen therapy

Overview:

This nationally recognised provide advanced resuscitation and oxygen therapy course gives participants the skills and knowledge required to provide advanced resuscitation in an emergency situation. Participants will learn how to utilise specialised first aid equipment; stabilise a casualty where medical aid has been delayed; maintain life in an unconscious casualty with the use of oxygen equipment; and operate a defibrillator unit in order to maintain life in an adult casualty in cardiac arrest.

Course content: Legal, cultural, and other issues; Debriefing/welfare; Basic life support; CPR & AED (DRSABCD), Anatomy and physiology; Oxygen therapy and resuscitation; Oropharyngeal airway; Bag valve mask (BVM); Maintenance of resuscitation equipment.

Pre-requisites:

Participants **must** have a **current** HLTAID011 Provide First Aid certificate.

Participants must have basic computer skills and access to a reliable computer with internet and email access. Mobile phones or tablets are not compatible with the online training portion of this course. As an assessment requirement of the HLTAID009 unit, participants must be able to perform at least 2 minutes (5 cycles) of CPR on an adult resuscitation manikin that is placed on the floor.

If you do not have a current HLTAID011 Provide First Aid certificate, enrol in our [combined course](#), which allows you to complete the HLTAID011 and HLTAID015 units together.

Licence & Regulatory Requirements:

It is recommended by industry councils and legislations that this course is renewed every 12 months.

Units of Competency:

On successful completion participants will be issued with a Statement of Attainment with the following units:

HLTAID009 Provide cardiopulmonary resuscitation

HLTAID015 Provide advanced resuscitation and oxygen therapy
