PUAOPE010C Operate an Automated External Defibrillator in an Emergency

Overview:

This unit covers the competency required to operate an automated external defibrillator (AED) to defibrillate a casualty in an emergency situation.

This unit includes advanced techniques for management of the administration of an AED in line with the requirements of the Australian Resuscitation Council and State and Territory regulatory bodies. The unit also involves working with personnel who are engaged in the resuscitation of the casualty. Cardio pulmonary resuscitation is covered in the prerequisite unit PUAEME001B Provide emergency care.

Pre-requisites:

PUAEME001B Provide emergency care

Or

HLTFA211A Provide basic emergency life support

Licence & Regulatory Requirements:

It is industry standard that those who hold this unit complete refresher training every 12 months.

Units of Competency:

On successful completion participants will gain a Statement of Attainment with the following units:

PUAOPE010C Operate an automated external defibrillator in an emergency

Delivery method:

3 hours classroom (group bookings only)

Fees and charges:

Classroom: Group bookings only, please contact us for pricing.
