## **RIIWH302D Implement Traffic Management Plans (formerly Level 2 Traffic Management)**

### **Overview:**

This course is for those participants who are required to read, interpret, and implement traffic management plans and install / remove signs and devices in accordance with procedures set out in the Manual of Uniform Traffic Control Devices Part 3 (MUTCD) while ensuring traffic flow is maintained and safety of the public is maximised.

To successfully complete the course participants will be required to possess a certain level of language, literacy and numeracy skills. Australian Training Institute will supply participants with the required practical training (at least 3 set ups) or participants can seek this themselves.

*Please note that this course does not allow a person to apply for a Queensland Traffic Control License, those wishing to apply will need to complete the RIIWH304D Control traffic with a stop / slow bat course.*

### **Pre-requisites:**

- Participants are required to hold a 'Construction Safety Induction Card' (white card / blue card) and
- A current drivers licence

### **Licence & Regulatory Requirements:**

All Traffic Management licences are administered by [Department of Transport and Main Roads](http://www.transport.qld.gov.au). It is industry standard that this course is completed every 3 years.

Participants must meet the following criteria:

- Minimum 18 years of age;
- have held an open or provisional drivers license (Australian or foreign) for a continuous period of 12 months within the past 5 years;
- Complete a Traffic Controller Accreditation Scheme Application declaring your offence history, your medical fitness and your training qualifications.
